

You need BAFE

If you specify fire alarm or portable fire extinguisher companies, you should be looking for BAFE registered companies.

Why.....? Because BAFE is the independent 3rd party approvals organisation, which ensures quality for the fire protection industry and provides the vital reassurance that the services being bought or specified are effective, reliable and competently maintained.

It also means you can be sure that you meet your obligations under the Regulatory Reform (Fire Safety) Order.

BAFE.... Promoting Quality in Fire Safety

Fire Service College, Bridges 2,
London Road, Moreton in Marsh,
Gloucestershire GL56 0RH
Tel: 0844 3350897
Fax: 01608 653359
Email: info@bafe.org.uk

You need BAFE

Are you responsible for specifying fire risk assessments and the installation and maintenance of fire alarms or emergency lighting? Are you sure that you are meeting your responsibilities under the Fire Safety legislation? If you are then you need the assurance of BAFE registered companies to support your business.

Why.....? Because BAFE is the **independent** 3rd party approvals organisation, which ensures quality for the fire protection industry and provides the vital reassurance that the services being bought or specified are effective, reliable and competently maintained.

It also means you can be sure that you meet your obligations under the Regulatory Reform (Fire Safety) Order.
