

## Monnex Powder Wheeled Extinguisher Unit

### Monnex Powder Fire Extinguisher

Monnex is based on a Potassium bicarbonate—Urea complex. The extinguishing powder interferes with the chemical reactions that take place in the combustion zone, thus the flame ceases to exist and the fire is extinguished. In the combustion zone Monnex powder explodes breaking into smaller particles which dramatically increases the surface area of the powder and thus the speed and effectiveness of this product.

The powder is non conductive and may be used in the presence of an electric current.

Monnex powder will extinguish class B (flammable liquid) fires and class C (flammable gas) fires.

- CE marked in accordance with the PED
- Colour coded screen
- Manufactured in the UK
- Reliability
- Designed for long service in harsh conditions

Model Ref	FT05-050-006	FT05-120-006
Capacity	50kg	120kg
Fire rating	-	-
Operating pressure	11.5 bar at 20°C	14.5 bar at 20°C
Operating temperature	-30°C to +60°C	-30°C to +60°C
Height	980mm	1230mm
Diameter	610mm	770mm
Filled weight (approx)	94kgs	218kgs
